### CHORUS:

It's a cold moon, it's a cold moon  
It's a cold moon that rides the sky tonight  
And the spirits of the folks I've known  
And the places where I've been  
I can feel them in the shadows,  
I can hear them .. in the wind

### 1.

Long before the white man knew this prairie  
The people who first called it home were livin' wild and free  
They moved across the seasons by the changes of the moon  
And just like them i've come to know how cold this night can be

### CHORUS

### CODA:

Time slows down ... the earth -- stands --- still

### 2.

Out here in this open-air cathedral  
Everything I see looks like it's all made out of stone  
And somewhere in the distance there's an old man in his lodge  
His song's about creation and this place he called his home

### CHORUS
